### Tulasara™ Facial Treatments

Dry, oily, ageing, uneven, sensitive and acneic skin conditions and eye concerns can all be addressed with a customised Tulasara™ facial treatment.

After a thorough consultation, your skin therapist will provide the best combination of products, personalised Aveda aromas and techniques and design a customised treatment that will move your skin toward balance and reveal its natural beauty.

## Aveda's plant-powered alternatives to microdermabrasion and chemical peels

### Dual Exfoliation Peel

The Dual Exfoliation Peel is Aveda's latest advancement in non-invasive, skin-renewing treatments. Using innovative techniques, this treatment combines Aveda's naturally derived\* mechanical and biochemical exfoliation methods into one powerful service that transforms and rejuvenates the skin through the process of dual exfoliation. The treatment delivers immediate, visible results in improved skin texture and radiance, smoothed appearance of fine, dry lines and refined pores - revealing fresher, younger-looking skin.

### Botanical Skin Resurfacing Treatment

Go beyond microdermabrasion, and energise the look of your skin with a professional facial treatment that helps smooth skin texture and reduce the appearance of lines and wrinkles and pore size while significantly increasing radiance—all with less visible redness and irritation than a microdermabrasion procedure.

### Perfecting Plant Peel™

Advancing the science of chemical peels, this professional facial treatment helps retexture skin; smooth fine, dry lines; refine the look of pores; and restore radiance. Safe for acneic skin conditions, the Perfecting Plant Peel™ can be performed as a stand alone treatment or added to any other facial treatment any time skin needs the exfoliation and radiance benefits of a 30% glycolic peel procedure with less of the associated redness and irritation.
